

Download and Install SeaDAS Software

Please download, install, and launch prior to Part 1 on June 5th

SeaDAS

<https://seadas.gsfc.nasa.gov/>

SeaDAS is a comprehensive software package for the processing, display, analysis, and quality control of ocean color data

- Latest version is **SeaDAS 7.5.3**
- Go to <https://seadas.gsfc.nasa.gov/requirements/> and check the requirement for your operating system and computer and make sure you have all the modules

The screenshot shows the NASA SeaDAS website. At the top, there's a navigation bar with 'EARTHDATA', 'Data Discovery', 'DAACs', 'Community', and 'Science Disciplines'. The main header features the 'SeaDAS' logo in large, bold letters. Below the logo is a navigation menu with 'ABOUT', 'TUTORIALS', 'HELP', and 'SOURCE CODE'. The main content area includes a satellite map of the ocean showing color-coded data, a text description of the software, and three buttons: 'Features', 'Requirements', and 'Download'. The footer mentions 'Responsible NASA Official: Gene C. Feldman'.

Download SeaDAS

<https://seadas.gsfc.nasa.gov/downloads/>

- Go to <https://seadas.gsfc.nasa.gov/downloads/> and download the SeaDAS Visualization Installer for your computer's operating system by clicking on the appropriate link
- Click on the downloaded/saved SeaDAS file and follow the instruction to install the software
- See https://seadas.gsfc.nasa.gov/tutorials/installation_tutorial/ for the installation tutorial for help

SeaDAS Visualization Installers

Filename	Version	Size
seadas_7.5.3_win64_installer.exe	7.5.3	190 MB
seadas_7.5.3_macos_installer.dmg	7.5.3	209 MB
seadas_7.5.3_linux64_installer.sh	7.5.3	152 MB
