

WHY COMPUTER SCIENCE?

A computer scientist's job varies wildly depending on the level of research and scope.

I chose computer science because I've always liked computers and it seemed like an interesting career field with lots of opportunities.

NASA CAPACITY
BUILDING PROGRAM
INTERN- TEAM LEAD ON
DATA ANALYSIS

WHAT DOES A COMPUTER SCIENTIST DO?

Definitely, being able to understand what goes into all of the technology surrounding us is incredible and it's a field I've found myself at home in.

BEN HODGKINS

WOULD YOU MAJOR IN COMPUTER SCIENCE AGAIN?

I'll be using my major to help the CPB in a variety of areas. From automating the data collection and processing system of the CPB to refreshing the design of a website and training calendar

HOW WILL YOU USE YOUR MAJOR TO AID THE CAPACITY BUILDING PROGRAM?
