## PROFILE

- Hannah has graduated from both high school and college with an Associates degree in Social Sciences through the four year Advance College Academy
- Currently working as a NASA Capacity Building Program Intern.

## EDUCATION

- Patrick Henry High School
- J. Sargeant Reynolds Community College
- Virginia Polytechnic Institute and State University - Class of 2024.

## WHY NASA?

- For as long as I can remember, I had a very strong love for outer space, and I was always fascinated with what NASA has accomplished. It's been my dream to work for them and I've been continuing to work hard to hopefully make that dream come true.

## LONGTERM GOALS

- My long term goals would be to graduate from Virginia Tech with a major in Aerospace Engineering. From there, I would look into job positions at NASA that fit what I want to do and also look at other opportunities from different companies to keep my options open.
